

Petition for D.E.P. EE:

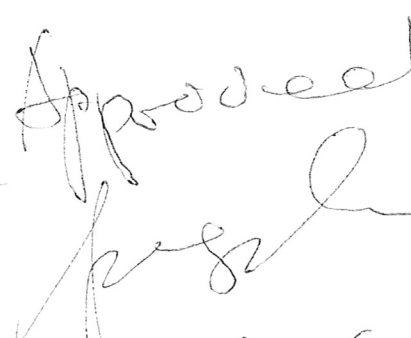

Due to my career focus changes and other reasons, I decide to terminate the Ph.D. EE degree program at ITU immediately. I would like to apply for the D.E.P. EE. instead. I have done approved 60 units for this program.

Thanks for International Technological University (ITU)'s education and my family's support in the past seven years (1994-2000). I have published one industrial standard IEEE-PDEF through the help of LSI Logic Corporation, one proceeding paper with Professor Chan on IEEE-ICCASS, three proceeding papers with Professor Peng on IEEE-ISQED and SNUG, one Ph.D. EE. Dissertation, and seven books for ITU. I also extend my teaching life from Taiwan to USA at Mission College and Silicon Valley University. It is enough for me during this period. I need to move forward for the next step.

I really appreciate that ITU can approve for the D.E.P. EE. and terminate my Ph.D. EE. program as soon as possible. This will give me a chance to express my appreciation for their support before Christmas in Taiwan.

Cordially Yours,
